

# Steps to Organic Certification

Whether you're looking to embrace a new system of farming, demonstrate your commitment to organic practices, or tap into the record number of organic consumers across the country, there has never been a better time to become certified organic.

## 1 Get to Know the Canadian Organic Standards

The standards define the specific requirements for agricultural products (food, feed and seed) labelled as organic.

## 2 Choose Your Organic Certification Program

BC Certified Organic Program (BCCOP) - For products sold only within BC

Canada Organic Regime (COR) - For products sold nationally and/or internationally.

## 3 Choose Your Certification Body

Certification bodies are organizations that certify organic farms and businesses.
